ABOUT THE PARTICIPANT:

Participant Name:_____

Contact Email*:_____
    Email used during registration.

*Will your experiment involve vertebrate animals?   ☐ Yes   ☐ No
    If yes, please have a veterinarian sign below indicating that the experiment will not harm the animal(s):

    Veterinarian Signature:_____

*Will your experiment involve collecting information from people?   ☐ Yes   ☐ No

    If yes, please have a school administrator sign below indicating that student privacy issues will be dealt with:

    School Administrator:_____

    Note: The student scientist must keep a notebook with:

    (i) a page from each person information was collected with a signature somewhere showing that the person(s) were told in general what the study was about, what types of things they would be asked to do and roughly how long it would take, that they could decide to quit at any time, and how their responses or any identifiable information would be protected so that, for example, their names do NOT appear in the final project or display of the final project.
    (ii) for students/classmates (i.e. people under the age of 18), the above form must also have the signature of a parent/guardian that give permission for the information to be collected.

Parent/Adult Supervisor's Signature: _____   Date: _____
